

Angie Candelaria, National Team Manager

Angie Candelaria is an experienced Operations Manager with more than 19 years of leadership in administrative and compliance-driven environments. She currently manages a national team overseeing electronic title and registration processing, dealer support, and help desk operations, working closely with dealers, lien holders, motor vehicle agencies, state processors, and title clerks across multiple states.

Throughout her career, Angie has led high-performing teams, implemented structured policies and training programs, and developed user guides and operational resources that improve efficiency and accuracy. She is known for building strong cross-functional partnerships and driving process improvements in complex, high-volume environments.

With a strong foundation in business office management, staff development, and operational strategy, Angie brings practical insight, hands-on leadership experience, and a collaborative approach to solving industry challenges.
