

Simplify Banking Department Audits with ComplyAuto DealCheck AI

Presented By:

Brad Miller, ComplyAuto, NHADA Diamond Partner

Michael A. Poulos, NH Banking Department

Session Description:

Preparing for a banking department audit doesn't have to be overwhelming. In this informative breakout session, ComplyAuto will showcase how DealCheck AI streamlines the audit process by identifying compliance gaps, organizing documentation, and helping dealerships stay audit-ready year-round.

Attendees will also hear directly from a representative of the NH Banking Department, who will provide valuable insight into what to expect during an audit, common areas of concern, and how dealerships can better prepare.

Gain a clearer understanding of the audit process and discover practical tools to reduce stress, save time, and ensure compliance with confidence.

Who Should Attend:

This session is ideal for dealer principals and general managers, as well as controllers and compliance officers responsible for overseeing dealership operations and regulatory adherence. It is also valuable for office managers, accounting managers, and title clerks who manage documentation and financial processes. Finance & Insurance (F&I) managers and anyone involved in audit preparation or dealership compliance will benefit from the insights shared.
