

Advancing E-Title: Benefits for Industry and State Government

Presented By:

Kristen Hernandez, Director of Electronic Solutions Support with EDS
Jonathan Frumin, Senior Business Analyst/ Project Manager with EDS
Angie Candelaria, National Team Manager with EDS
Tom McKinnon, New England Product Support Specialist with EDS

Jennifer N. O'Leary, Administrator, Bureau of Registration, New Hampshire Department of Safety - Division of Motor Vehicles

Jennifer Gornert, Title Bureau Administrator, New Hampshire Department of Safety - Division of Motor Vehicles

Session Description:

Join us for an insightful panel discussion on the evolving world of electronic vehicle titling (E-Title) and how it is transforming the automotive industry and state government operations. This session will feature experts from the DMV and EDS, who will share their perspectives on the benefits, challenges, and future opportunities of E-Title implementation.

Attendees will gain a deeper understanding of how E-Title improves efficiency, reduces errors, accelerates transactions, and strengthens compliance for dealerships and state agencies alike. Panelists will also address common questions, best practices, and strategies for successfully integrating E-Title solutions into your operations.

Whether you're a dealer, regulator, or industry professional, this session will provide actionable insights on leveraging technology to streamline vehicle titling and registration processes.

Who Should Attend:

Dealership leadership, compliance officers, operations managers, and anyone involved in vehicle titling, registration, or state regulatory processes.
